PROFESSIONAL SUMMARY

Full-Stack Web Developer skilled in Python, JavaScript, React.js, Flask, and REST APIs. Experienced building responsive, scalable applications with HTML5, CSS3, Bootstrap, MySQL, and MongoDB. Proficient in Git, OOP, SDLC, unit testing, Agile/Scrum, CI/CD, Docker, and AWS. B.Tech CSE graduate (2025) seeking a software engineering or full-stack development role.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frameworks & Libs: React.js, Flask, Bootstrap, Node.js, REST APIs, JSON/AJAX, Jinja2
Databases: MySQL (Relational), MongoDB (NoSQL), Database Design, Query Optimization
Tools & DevOps: Git, GitHub, Postman, Docker, AWS (EC2/S3), CI/CD, VS Code, npm, Webpack
Practices: OOP, SDLC, Agile/Scrum, Unit Testing (pytest), Debugging, Code Review, Responsive Design

WORK EXPERIENCE

Front-End Developer Intern	Jun 2024 – Nov 2024
Sharpedge Enterprise Solutions Pvt. Ltd. — Hyderabad	
- Designed and developed 10+ responsive web interfaces using HTML5, CSS3, JavaScript (ES6+) & Bootstrap following SDLC best practices; ensured cross-browser compatibility across Chrome, Firefox, and Edge. - Integrated 5+ REST APIs with JSON/AJAX into front-end modules, reducing manual data-entry workflows by ~40%; applied lazy loading and asset optimization achieving ~25% faster page load times. - Collaborated in an Agile/Scrum team of 6 across sprint planning, daily stand-ups, unit testing, and code reviews using Git & GitHub; contributed to a shared UI component library.	
Full-Stack Product Developer	Jan 2024 – May 2024
Startup Project — Hyderabad	
- Architected and deployed a full-stack web platform using Python (OOP), Flask, MySQL, and React.js; led concept to production, delivering 3 stable iterations through rapid Agile development cycles. - Configured CI/CD pipeline and AWS cloud deployment; integrated LLM REST APIs reducing manual content processing by ~50%; wrote pytest unit tests ensuring stability across all releases.	

PROJECTS

AI-Powered Resume Analyzer & Job Match System Live 
Python · Flask · MongoDB · React.js · REST API
Full-stack app that parses resumes, extracts 20+ skills via NLP, and scores job-candidate matches; Bootstrap dashboards, JWT auth, AWS deployment with CI/CD.
Smart Appointment & Service Booking Platform
Python · MySQL · JavaScript · Bootstrap · OOP
Booking platform with OOP architecture, role-based access control, and MySQL schema handling 1,000+ records with real-time conflict detection and query optimization.
Personal Portfolio Website Live 
HTML5 · CSS3 · JavaScript · Responsive Design
Semantic HTML5, CSS Grid/Flexbox portfolio scoring 95+ on Google Lighthouse; deployed on GitHub Pages with custom domain.

EDUCATION

B.Tech — Computer Science Engineering	2021 – 2025
Pace Institute of Technology and Sciences, Ongole, Andhra Pradesh — First Class (71.3%)	

CERTIFICATIONS

Artificial Intelligence Prime	2024
Infosys Springboard	
Python Programming	2023
Infosys Springboard	
Data Analytics and Visualization	2023
Accenture (Forage)
