Location: Hyderabad, India

Career Objective

Motivated and detail-oriented entry-level Python Developer with strong foundational knowledge in programming, problem-solving, and data structures. Seeking an opportunity to apply my skills in developing scalable applications and automating workflows while contributing to a dynamic development team.

Academic Qualification

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering
Swarnandhra College of Engineering and Technology, Seetharampuram
CGPA: 8.23 / 10

Intermediate
Sri Surya Junior College, Narsapur
CGPA: 9.0 / 10

Secondary Education (SSC)
Z. P. O. H School, Kalipatnam
CGPA: 8.6 / 10

Technical Skills

Programming Languages: Python, C (Basic)
Web Technologies: HTML, CSS, JavaScript (Beginner)
Database: MySQL
Tools & Libraries: Pandas, NumPy
Operating Systems: Windows, Linux (Basic)

Projects

1. Weather App using Python API
 - Created a command-line weather app using the requests library and OpenWeather API.
 - Displayed live weather data including temperature, humidity, and wind speed.
2. Number Guessing Game
 - Designed a fun terminal-based game using loops, random module, and conditional logic.
 - Improved logic building and exception handling skills.

Certifications

Python Programming course completion by APSSDC.

Python Programming course completion by BASANT TECHNOLOGIES.

Introduction to Python – W3schools

SQL Fundamentals – SoloLearn

Soft Skills

Quick learner and adaptable to new technologies

Strong analytical and problem-solving abilities

Good communication and teamwork skills

Ability to work under pressure and handle multiple tasks

Additional Information

I can join work immediately if an offer is made.

I'm flexible to work in any environment and ready to relocate.

Declaration

I hereby declare that the information provided above is true to the best of my knowledge.
