OBJECTIVE

Motivated Full Stack Developer with foundational expertise in Java, HTML, CSS, and JavaScript. Skilled in SQL and database management, with a strong aptitude for troubleshooting and automation scripting. Seeking an entry-level position to apply my skills in web application development and system optimization.

SUMMARY

- Proficient in front-end technologies, including HTML, CSS, and JavaScript.
- Familiar with Java for back-end development, with strong programming skills.
- Solid understanding of Object-Oriented Programming (OOP) concepts, including Inheritance, Abstraction, Encapsulation, and Polymorphism.
- Strong grasp of Core Java.
- Basic knowledge of SQL and DBMS, with experience in database design and querying.
- Excellent communication and collaboration skills
- Strong problem-solving abilities and attention to detail.

TECHNICAL SKILLS

- **Programming Languages:** Java
- **J2EE Technologies:** JDBC, Servlets
- **Web Technologies:** HTML, CSS, JavaScript
- **Databases:** SQL, MySQL

CERTIFICATIONS

- **Programming in Java** – NPTEL (April 2023)
- **HTML & CSS** – Online Course Certification

PROJECTS

Online Tour and Travels

- **Technologies Used:** HTML, CSS, JavaScript
- **Description:** Designed the front-end interface to provide all necessary facilities for customers planning a tour. The website aims to offer comprehensive information to tourists about various travel destinations.

Machine Learning Approach for Tracking and Predicting Student Performance

- **Technologies Used:** Python, Machine Learning
- **Libraries:** NumPy, Pandas
- **Description:** Developed a data-driven model to predict and analyze student performance in degree programs using machine learning techniques. The project provides insights into key factors influencing academic success, identifies students at risk of underperforming, and suggests recommendations to enhance their performance.

PUBLICATIONS

- **Title:** *Abstract on Mobile Processor* – SSRN Journal
 - **Description:** Explores mobile processors, which are central processing units designed for mobile devices, balancing high performance with energy efficiency. The paper discusses their role in running applications, communications, and multimedia, along with the integration of GPUs and NPUs for graphics and AI. It also highlights key manufacturers such as Qualcomm, Apple, and Samsung.

EDUCATION

- **Master of Computer Applications (MCA)** – CGPA: 8.1
 - *Andhra Loyola College, Vijayawada, AP – September 2023*
- **Bachelor of Computer Science (BSc)** – Percentage: 76.5%
 - *Career Degree College, Guntur, AP – August 2020*

LANGUAGES

- **English:** Fluent
- **Telugu:** Native
